Itinerary

Day 1: Mt. Rainier National Park

Mt. Rainier is the tallest volcano of the Continental United States, the 5th tallest mountain of the entire US territory. The mountain top is covered by snow all year round. When snow melts, snow water flows down in a large volume, which creates beautiful waterfalls and vast lakes meanwhile irrigates the forest land. Mount Rainier is circled by the 93-mile-long Wonderland Trail and is covered by several glaciers and snowfields totaling some 35 square miles. Carbon Glacier is the largest glacier by volume in the contiguous United States, while Emmons Glacier is the largest glacier by area. About 1.8 million people visit Mount Rainier National Park each year. Mount Rainier is a popular peak for mountaineering with some 10,000 attempts per year with approximately 50% making it to the summit. We will go along the Wonderland Trail by stopping at 2-3 scenic spots. (According to the situation of the day) In the summer, we will lead you traverse the Volcano mountains.

Pike Place Market is also where the first Starbucks store was founded. After strolling around the market, we will head to **Space Needle**. Space Needle is an observation tower in Seattle. It was built in the Seattle Center for the 1962 World's Fair; it drew over 2.3 million visitors, which you should never miss. It is the structure you can see from every single corner of Seattle. On top of the tower you are offered with free telescope to see the amazing view of not only Seattle city but also Puget Sound and Mt. Rainier. You can also surprise yourself by experiencing the most advanced hologram technology at the Space Needle. **Chihuly Garden and Glass** is an exhibit in the Seattle Center showcasing the studio glass of Dale Chihuly.
